

Healthy Relationship with Friends

- * Healthy friends are a gift from God
- * Some friends are meant only for a season or a stage of our lives
- * Anyone who tries to block, sabotage, or guilt you out of your growth is not a healthy friend
- * Don't invest your friendship energy in people you can't trust
- * Never chase anyone's approval
- * Best friends journey alongside us
- * Our most trustworthy friends make great accountability partners
- * Covenant friends minister to each other
- * If you want to make new friends, ask "is there anything I can pray for you about?"
- * Remember that Jesus is your friend 24/7/365
